

New Photos From Russia Showing Kerensky and Korniloff in the Field

A photograph taken during the recent visit of Premier Kerensky to the Russian-German front. The youthful Premier was always received with enthusiasm by his fighting men, and an immediate im-

provement of the morale of the troops was noted every time he visited the fighting lines.

General Korniloff and his bodyguard. General Korniloff, at one time disgraced by the provisional government, and deposed as head of the armies, is reported to have gathered his men into a formidable

army and to be loyally supporting Premier Kerensky in his attempts to save Russia.

BRITISH THRUST FOE BACK AGAIN IN FLANDERS ZONE

LONDON, Nov. 18.—Field Marshal Haig has pushed successfully forward again, driving the Germans still further toward the outermost edge of Passchendaele Ridge.

His day report mentions the fighting as "a successful operation." Presumably it was a concentrated local attack. Portions of enemy positions on the main ridge north of Passchen-

daele, including a strongly fortified farm, were stormed and held. West of Passchendaele other advances were registered by the British. The German activity has been mainly confined to unusually heavy shelling of all British positions.

The British commander-in-chief reports consolidation of the ground captured in this "push," mentioning the new positions as "northwest and north of Passchendaele."

"East and northeast of Ypres there was considerable hostile artillery," he added. "South of Boeseperve Heights regiments carried out a successful raid."

Front dispatches indicate that the Germans now only hold approximately two square miles of the high ground on the Passchendaele ridge. They are being battered inch by inch out of this grip on the only high land between Passchendaele and Roulers, the basic point in the German line of communications to the submarine bases on the Belgian coast.

GENEVA, Switzerland, Nov. 18.—Turkey is panic-stricken at the rapid

approach of General Allenby's British soldiers to Jerusalem, the Holy City. Dispatches received here last night via Vienna hinted at great unrest in Constantinople.

The fall of Enver Pasha and the Young Turks regime was predicted as a result of the overwhelming defeat suffered by Turkish arms in a section of Asia Minor where every inch is regarded as sacred soil by Moslems.

FALL OF ANCIENT PORT
OF JOPPA TO BRITISH
MOMENTARILY EXPECTED

LONDON, Nov. 18.—Fall of Joppa, Palestine's ancient seaport, to the victorious British troops was momentarily expected tonight.

Official dispatches from General Allenby reported the Turks in retreat before advancing British columns and endeavoring to prepare entrenched positions north of the city.

KERENSKY FLEES AS MEN DESERT; MAY BE SUICIDE

(Continued from First Page.)
Bolsheviks on the larger cities of northern Russia will mean a division of the great nation. The great peasant population of the steppes has not yet been heard from, and it is known that they always considered Kerensky as an idol. That they may refuse to abide by the newly formed government is considered highly probable.

The following official report from Rome tells of the fiercest fighting yet reported from the front:

"Most violent and sanguinary encounters are taking place along the line extending to the eastern zone of the Steto Communi plateau, where our troops are valiantly opposing the advance of the enemy toward the Venetian plain."

"Along the Piave, the intensified enemy pressure compels us to maintain undiminished our units guarding against any attempt on the part of the Austro-Germans to effect a passage of the river."

"In the mountainous zone of the Piave the enemy is delivering frequent assaults of the most desperate character in an effort to occupy our positions on Monte Grappa, which is our principal defensive pivot in support of that section, and thereby facilitating maneuvers in a larger scale for its main armies, who aim at forcing a passage through the Sette Comuni plateau and invading the plain by the Vicenza-Pontariva-Bassano line."

"Similar assaults were undertaken in the vicinity of Monte Zomo, where the Austro-Germans concentrated in a very short time large bodies of troops, but owing to the difficulty of the ground deployment of great forces, entire battalions of Germans were annihilated by the effective fire of our artillery and bayonet counter attacks."

"In the region of Monte Pigi an entire enemy division was obliged to retire, having suffered considerable losses."

GERMAN SHIPS ROUTED
IN SHARP ENGAGEMENT
IN HELIGOLAND BIGHT

LONDON, Nov. 18.—A sharp engagement between British light ships operating in Heligoland Bight and

German ships resulted in the quick withdrawal of the Germans, according to dispatches from Copenhagen. The German vessels were chased, and later a violent cannonading was heard, but no reports of this engagement have been received. At intervals during this engagement great explosions were heard.

The German retreat was along the lines usually followed in an attempt to entice the British into their mine fields. No report of the results is expected until the British ships return to port.

GERMAN WARSHIPS REACH
ADRIATIC FOR BATTLE;
ITALIAN BATTERIES BUSY

ROME, Nov. 18.—A great sea battle in the Adriatic at the mouth of the Piave river is imminent. Many Teuton warships have assembled in the Adriatic in preparation for the expected battle.

Italian naval airplanes and shore batteries have already repulsed five enemy destroyers before Cortislasso, situated almost at the mouth of the Piave, according to an official announcement here.

Italian naval forces are known to be in this section. During the retreat to the Piave river line, the war of sea has announced, vessels landed sailors who greatly assisted the retirement of the army to prepared positions.

PAINLESS Extracting and Filling

Special Prices for a Short Time:
Teeth without root, with gold attachments. \$13.50

DELAYED CABLE TO U.S. SAYS RUSSIAN SOCIALISTS RULE

With unconfirmed reports reaching Washington that Kerensky is in flight and that even his Moscow garrison is besieged in the ancient Kremlin, the State Department received a cablegram from Ambassador Francis at Petrograd saying the socialists have taken possession of the government. They have formed a compromise ministry, taking in the various factions of the revolutionists. They have set up a tentative sort of government, with a large representation of the Bolsheviks.

Ambassador Francis' message was dated November 15.

PETROGRAD, Nov. 18.—The formation of a democratic congress of work-

men's and soldiers' delegates, to which it is proposed that all Socialist governments shall be responsible, is under discussion by the railwaymen's union, the committee on safety, Bolshevik leaders, and the town duma. According to the plan outlined, the municipal dumas of Petrograd and Moscow would have a majority representation on the ground that they are the only legally elected bodies. Other elements to be elected to the congress in the order of their strength would be the army, fleet, and peasant deputies.

A telegram to the railwaymen's union reports that Moscow is the scene of great disorder, and that hunger riots have occurred there. From other sources it is reported that the Kerensky government has been overthrown, and that several buildings have been burned.

MORE AMERICANS WOUNDED
IN ARTILLERY BATTLE;
GERMAN LOSS GREATER

WITH THE AMERICAN ARMY IN FRANCE, Nov. 18.—It is certain that there have been further casualties among the American troops. Within

the last two days, artillery fighting on the sector held by the Americans has been much heavier. Reports have been made of a number of men in the trenches.

The Americans have not been passive. They have rapidly and incessantly shelled the enemy's positions. It is known that the Germans have been shelled for several days, and that the damage inflicted on the enemy's screens of that which is feared.

The Germans are continuing to send over more gas shells, but the damage resulting has been light. The French general commanding the sector has mentioned in the dispatches fifteen American officers and soldiers, including three who were killed, for excellent military qualities and for bravery displayed in the recent trench raid. A note accompanying the citations says that between 8,000 and 10,000 shells were used in the attack, which had been in preparation for three months, down to the finest details.

THE TRUTH ABOUT HAIR REMOVERS

The Proof of the Power of **MANDO**

Is in the Wonderful Sale It Has in Your City

THE TRUTH—The Function of a Depilatory (Hair Remover) Is to Remove the Hair

A great many women, however, expect that a hair remover will remove permanently. Hair growth is natural on the human body. They are placed there for a specific purpose by nature as a protection to the skin and pores. Unfortunately they grow on some women (mainly dark complexioned) stronger than on others, and the only thing to do is to remove them whenever they appear.

Right here is where the unscrupulous advertiser gets in his deceitful work. He plays on the credulity of the public by telling how his great secret formula (which he will sell to you for a song) is absorption method, magic balm, root-killing process and other methods destroy the hair root and branch.

DO NOT BELIEVE THESE STATEMENTS for they are not true and their authors know it.

Hair will grow and you can't stop it from growing, but if you want to remove it and remove it safely use **MANDO**.

We believe and you will agree with us (after a trial) that after 20 years of experience that we have a preparation which will do just what we say it will, but

We do not promise to kill the roots, neither do we promise the hair will never return. But we do promise to remove it safely

and furthermore, that it will not irritate the skin if applied properly.

No woman wants to appear with an unsightly hair growth, and as depilatories are becoming better understood they are becoming every day more a toilet necessity. They are sold by the best storekeepers in the cities, because fashionable women in every walk of life have found them an absolute necessity.

But when you buy a depilatory buy the reliable Mando. The one that gives the best results.

It costs no more than the ordinary hair remover.

To the woman who has never used a depilatory and wants to know, we say—Try Mando. Use it as we direct and

REMEMBER The new style dress gowns; the short sleeves and slender waists; the thin, feminine body and the feeling of cleanliness and being well groomed.

DEMAND MANDO

Remember also, please: You can't stop the hair from growing, but the least you can do is to remove it whenever it appears. This latest article is sold and recommended by all druggists who are authorized to refund to you your money if Mando does not do what we say it will do.

SOLD BY YOUR DRUGGIST JOSEPHINE LE FEVRE COMPANY PHILADELPHIA, PA.

Mando Superfluous Hair-Remover Has Stood 20 Years' Test

No other depilatory on the market has made such a splendid record. Thousands and thousands of bottles sold all over America. Never a word of complaint, because MANDO makes good: otherwise it wouldn't be sold.

Women who shunned society—or were shunned—because of hair-growth on face, neck, arms, legs, etc., now have a clear, natural skin, thanks to MANDO.

Positively removes any superfluous hair growth from face, neck, and arms.

What woman wants the hair growth under the arms showing—when she is wearing a fetching dress gown? What woman wants the hair growth under the arms showing—while wearing a new bathing suit? Think these things over. Be up to the speed in your personal appearance. Use Mando, I've sure. Price \$1.00, sold by all drug and department stores.

Now being sold in the leading stores, in itself constituting the hall-mark of quality. We will be glad to let you try a generous sample before you purchase the regular dollar bottle. Send 1¢ to help pay postage and packing to Josephine Le Fevre Co., 339 N. 14th St., Phila., Pa.
